

FUN ACTIVITY!

1. Put people into groups.
  2. Ask the following questions, one at a time, and give them about 1 min. to write their answers down. I would suggest writing them down on separate pieces of paper so they can see the questions. Write them down exactly as you see them here. When a group finishes one you can pass them the next question.
  3. Go over answers. Whatever group has the most answers corrects, wins!
